

# PERIODICALS RECEIVED

This is the current list of periodicals received by *Computing Reviews*, although not all of them are considered for review in *CR*. The *CR* editorial staff is in the process of expanding this list, and more titles will be added in the months ahead. Addresses and email of the journal publishers and International Standard Serial Numbers (ISSNs) are provided to facilitate obtaining copies of articles or subscriptions.

We welcome suggestions of periodicals that should be considered for systematic review and of individual papers or publications that particularly merit review. Please send email with complete information (title, author, name of journal, issue in which article appears, publisher, and ISSN if possible) to: [wierzbicki@acm.org](mailto:wierzbicki@acm.org).

This list supersedes the one published in the November 2001 issue [*CR* **42**, 11, pp. 319–328].
